

Blue-Ribbon Cultural Committee Appointed

More than 100 leading citizens of Santa Cruz County have accepted appointments to the Cultural Action Plan Committee (CAPC), a group designed to recommend cooperative methods and services to strengthen the area's cultural institutions, assisting artists and explore new programs that bring together the arts, sciences and people.

Harold A. Hyde, chairman of the committee, in releasing the names of the members, called attention to the fact that all elements of the county and representatives of some adjacent communities are included.

"We have the unanimous backing of the board of supervisors," Hyde said. "On our committee are the chairman of the Board of Supervisors, the mayors of all four cities in the county, the president of Cabrillo College, the chancellor of UCSC, the county superintendent of schools, leading businessmen, members of the county and city government and, of course, representatives of the arts community."

"This is an unparalleled and remarkable unanimity of action, structured by Ralph Burgard, the internationally known consultant in community arts, whom we have brought here to show us a reasoned, and in other communities already very successful, approach to strengthening the county's cultural institutions."

"We have previously formed a separate group, called a Resource Committee, already hard at work digging out the county's primary needs in the arts and sciences field, such as cooperative methods and services, assisting artists, physical structures, help for the public schools and development of new funding sources and oth-

ers. This group, composed of administrators and artists from cultural organizations and county and city arts commissioners, will present its initial findings to the Cultural

Harold Hyde

Action Plan Committee next Thursday. This study meeting will tackle the problems and their solutions as proposed by the Resource Committee."

Hyde, a fifth generation Santa Cruz County resident and businessman, has been deeply involved in many aspects of the cultural and educational activities of the area. Since 1959, he has served as an elected founding trustee of Cabrillo College and served as vice-chancellor of Business and Finance of UCSC from 1964 to 1975.

CAPC members include Gloria K. Alford; Benton A. Angove; Kate Ashcraft; Leo Astrada; Henry R. Baker; Ralph Bargetto; Jack Baskin; Tandy Beal; Erva J. Bowen; Lorraine Boyle; Harry L. Bright; Worth Brown; Linda Burman-Hall; Charles L. Can-

field; Mario Carabarin; Raymond F. Carl; Florence Chavoya; Kenneth R. Clark; Carl R. Conelly; Neal Cooner; Joe J. Crosetti; Lile Cruse; Sidney R. Damon and E. Reese Davis.
